

# OVERHEAD PRODUCTS INTRODUCTION

In 2006, DCD Design took on the Cable Spinning Equipment Company, and began producing the Lineman and Eagle cable lashers. In doing so, DCD took on a long history of quality and innovation.

These lashers were previously manufactured by Cable Spinning Equipment Company, Inc. in New London, MN and before that, in Topeka kS. The original company was founded in the late 1930's by Mr. Dory Neale.

Their history in lashers goes back to their early patents in 1942 when Mr. Neale has the first ever patent on a cable spinner. That was for the one-man spinner shown in the photograph to the right. From those days onward, there have been several other patents and many innovative improvements.

DCD Design is proud to carry on the tradition of quality and innovation with the Eagle cable lasher. This machine has been designed and produced for the 21<sup>st</sup> century, and its lightweight and simple design make it the most advanced lasher ever created.

## LINEMAN LASHER

### 61400 SERIES

The Lineman™ Lasher is the pull type cable lasher for tough jobs, especially in dusty, wet or icy conditions. Use it to lash single or multiple cables up to 3" outside diameter and for single and double overlapping.

you won't get snagged in trees and tight places with the Lineman™ Lasher because of the smooth, tapered cowl. Transfer time around poles is cut by as much as one-third, with the wire quick release trigger mounts below the handle for easy, one-hand engagement and release for continuous lashing.

Versatility means less downtime and smooth operation. A key feature is that the Lineman™ requires no strand traction to drive rotation – this means you can now lash in any weather. The tough, precision drive system needs no adjustment and delivers even lashing action. The strand brake keeps wire tight prevents the lasher from sliding backward when forward motion is halted.

The Lineman™ Lasher holds up to 1200 ft. per coil of 0.045" lashing wire without reloading, and works compatibly with up to 1/2" strands. A flat base ensures the lasher won't roll around in transit, and the ergonomic handle and controls add to total precision performance.

TOW ROPE (3/8" ROPE X 3/4" HOOK)

OVERLASH ASSEMBLY

Part No.	Max Strand	Max Lash	Wire Size	Spool Size	Overall Dimensions	Weight
61400-000	1/2"	3" DIA.	.045"	1,200 FT/COIL	19-1/2" X 12" X 12"	38 LB

## LINEMAN LASHER ACCESSORIES

Part No.	Description	Overall Dimensions	Weight
61436-000	HALO BRUSH GUARD	9.7" x 4.4" x 2.5"	1.6 LB
61438-000	OVERLASH ASSEMBLY	6.3" x 4.4" x 2.7"	3.3 LB
61439-000	TOW ROPE (3/8" ROPE X 3/4" HOOK)	60" LONG	1.0 LB
61440-000	OVERSIZE STRAND LOCK ASSEMBLY	5.6" x 2.9" x 2.3"	1.2 LB
61442-000	HALO RING GUARD KIT - LINEMAN	13.7" x 9.25" x 2"	5.6 LB
